SPALDING REGISTRATION
DISTRICT.

Introduction

This is the thirteenth volume of a series of surname indexes covering the 1881 Census of Lincolnshire. Instead of indexing surnames by parishes, all the surnames in a piece number, which may include several parishes, have been combined to form the index. This system has been adopted because each Registration District comprises at least 4 piece numbers and in some cases as many as 15 piece numbers. A list of Civil Parishes is given at the head of each piece number, together with the folio numbers for each parish.

This index includes all the parishes in the Spalding Registration District and the whole of piece number RG 11/1597 in Peterborough Registration District which includes the parish of Crowland in Lincolnshire.

The number which follows a surname is the folio number in the Enumerator's Returns and is located in the top right hand corner of each alternate frame of the microfilm. The folio number covers the numbered page and the subsequent page so both should be checked.

Microfilms of the Holbeach Registration District may be consulted at:

Lincoln Central Reference Library, Free School Lane, Lincoln

Spalding Library

Public Record Office, Census Room, Portugal Street, London

Acknowledgements

The compilation of this index was a team effort. Grateful thanks are extended to James Arnold, Jennifer Paul and Ros Pursglove of the Spalding Family History Group; to Pat Pomeroy for checking and indexing their transcription; to John Pepperdine of Norwich for indexing the Peterborough Registration District piece number and to Joyce Barnes for typing the text.

Richard E.B.Ratcliffe
